Skills Request Outside of Protocol

Thomas K. Lackey, M.D. / Beverly Richardson, CRNP The Credentials Committee recommended that, pursuant to standard language previously approved by the Board, Dr. Lackey be approved to train the CRNP to perform joint injections and trigger point injections. The Committee recommended that the documentation of supervised practice, as submitted, not be approved to meet the skills training criteria. Dr. Lackey should be notified that documentation of supervised practice should be submitted for training that will be conducted subsequent to his receiving the Board's approval to train the CRNP for the requested skills. The Committee recommended that the request to train the CRNP to perform botox injections be denied. The motion was adopted without objection.

UAB / Donald Reiff, M.D. The Credentials Committee recommended that training requirements be drafted for the following skills that, if approved, can be requested by mid-level practitioners practicing in Level 1 or Level 2 trauma centers: subclavian central line insertion without a physician present; central lines up to 13 French insertion and removal

without a physician present; chest tube insertion outside the operating room setting; and thoracentesis and pigtail catheter insertion for continual drainage after thoracentesis. The motion was not adopted.

A second motion was made to defer consideration of this item for further research of peer review information, other state regulations concerning mid-level practitioner skills, and specialty related criteria for the performance of the skills. The motion was adopted without objection.

Tracey Wilson, M.D. / John Patrick Selph, M.D. / Morgan Burke, CRNP The Credentials Committee recommended deferring consideration of this item pending a report from the Joint Committee.

After consideration of a report from the Joint Committee, in which the Joint Committee recommended that the physician be approved to train the CRNP to perform cystoscopy, cystourethroscopy, and xiaflex injection therapy, a motion was made not to approve the recommendation of the Joint Committee and to deny the request to train the CRNP to perform cystoscopy, cystourethroscopy, and xiaflex injection therapy. The motion was adopted without objection.
